

BUILD TOGETHER

Pond frog

12 pieces / 7 steps

A squat body, chunky back legs and two raised eyes make a frog ready for a pond-side story.

A little model, a little story

Draw lily pads on paper and move the frog between them by hand.

Count its two eyes and find its broad back legs.

Take turns making up a frog sound and answering it.

Build together with an adult. No bricks included.

GETTING STARTED

Before you build

Find the pieces

Match the shapes and quantities. The pictures show our colours. Use the pictured part and stud dimensions to find the same shape.

Count the studs

Studs are the round bumps on top. Count the lines of studs across and along a piece. When a step leaves a clear row or column, keep that space empty. Match the picture to keep the model facing the same way.

Follow the colour

New pieces keep their colour in each step. Earlier pieces are lighter so you can see what to add. The finished-model picture shows all the colours together.

Choose how to play

Choose one model and check its pieces first. Take it apart to reuse those pieces for another model. Pack-wide lists are optional planning tools; the exact-colour list follows the pictured palette.

GATHER YOUR PIECES

Exact parts checklist

Match the shapes and quantities. The pictures show our colours. Colour names in the steps refer to the pictures. Keep useful contrasts, such as a light belly against a dark body. The frog curved legs are Bright Green; its other green parts are Green. Match the pictured shapes and part numbers to your bricks.
