Pretend coffee machine

15 pieces / 9 steps

Gather the parts. Build together. Make up a story.

Every guide is included for offline use. Adult-led play; no bricks included.

GETTING STARTED

Before you build

Find the pieces

Match the shapes and quantities. The pictures show our colours. Use the pictured part and stud dimensions to find the same shape.

Count the studs

Studs are the round bumps on top. Count the lines of studs across and along a piece. When a step leaves a clear row or column, keep that space empty. Match the picture to keep the model facing the same way.

Follow the colour

New pieces keep their colour in each step. Earlier pieces are lighter so you can see what to add. The finished-model picture shows all the colours together.

Choose how to play

Choose one model and check its pieces first. Take it apart to reuse those pieces for another model. Pack-wide lists are optional planning tools; the exact-colour list follows the pictured palette.

What is included

Ten illustrated building guides

A picture menu and eight order cards

Parts lists for the café and smaller serving activities

BUILD TOGETHER

Mix-and-match pizza

20 pieces / 10 steps

Make a sharing pizza with four portions you can lift from the tray and put back again.

A little model, a little story

Count four portions: two pepper and two cheese.

Lift a portion by its yellow square base and serve an order.

Return the portions to the tray to make the whole pizza again.

Build together with an adult. No bricks included.

GETTING STARTED

Before you build

Find the pieces

Match the shapes and quantities. The pictures show our colours. Use the pictured part and stud dimensions to find the same shape.

Count the studs

Studs are the round bumps on top. Count the lines of studs across and along a piece. When a step leaves a clear row or column, keep that space empty. Match the picture to keep the model facing the same way.

Follow the colour

New pieces keep their colour in each step. Earlier pieces are lighter so you can see what to add. The finished-model picture shows all the colours together.

Choose how to play

Choose one model and check its pieces first. Take it apart to reuse those pieces for another model. Pack-wide lists are optional planning tools; the exact-colour list follows the pictured palette.

GATHER YOUR PIECES

Exact parts checklist

Match the shapes and quantities. The pictures show our colours. Colour names in the steps refer to the pictures. Keep useful contrasts, such as a light belly against a dark body. Match the pictured shapes and part numbers to your bricks.

Counts below are for this complete model.

BUILD TOGETHER

Sushi tray trio

20 pieces / 11 steps

Build three little sushi rolls with colourful centres, each ready to lift from its red tray.

A little model, a little story

Serve a red-, green- or yellow-topped roll to match an order.

Lift each complete roll by its black base.

Return all three rolls to the tray for the next customer.

Build together with an adult. No bricks included.

GETTING STARTED

Before you build

Find the pieces

Match the shapes and quantities. The pictures show our colours. Use the pictured part and stud dimensions to find the same shape.

Count the studs

Studs are the round bumps on top. Count the lines of studs across and along a piece. When a step leaves a clear row or column, keep that space empty. Match the picture to keep the model facing the same way.

Follow the colour

New pieces keep their colour in each step. Earlier pieces are lighter so you can see what to add. The finished-model picture shows all the colours together.

Choose how to play

Choose one model and check its pieces first. Take it apart to reuse those pieces for another model. Pack-wide lists are optional planning tools; the exact-colour list follows the pictured palette.

GATHER YOUR PIECES

Exact parts checklist

Match the shapes and quantities. The pictures show our colours. Colour names in the steps refer to the pictures. Keep useful contrasts, such as a light belly against a dark body. Match the pictured shapes and part numbers to your bricks.

BUILD TOGETHER

Pretend coffee machine

15 pieces / 9 steps

Make a café machine with a little serving space for a paper cup and fixed pretend controls.

A little model, a little story

Place a tiny paper cup in the serving space.

Ask for a pretend drink, point to a control and serve your customer.

Take a coffee-and-toast order from the picture menu.

Build together with an adult. No bricks included.

Optional paper cup: up to 28 mm wide and 30 mm tall. Slide it in from the front; use pretend drinks only.
