# Prehistoric fern grove

8 pieces | 6 steps

Two leafy tree ferns rise above a small green patch with rounded rocks. Make a resting place for the dinosaur visitors.

## Before you build

**Find the right shape**

Match the shape, size and colour to the parts pictures. A stud is a round bump on top. Count rows and columns from one edge.

**Follow the pictures**

New pieces keep their full colour. Earlier pieces are lighter. Keep the front of the model facing you unless a step says to turn it.

**Build and play together**

Gather all the pieces first, then take each step at your own pace. Help your child press pieces together and lift removable parts gently.

# Gather pieces

Colours show the pictured version. Brown represents Reddish Brown. Match shapes and quantities first; other colour choices have not been checked for this edition.
